- ✓ Easy to use
- 🔗 Robust and durable
- 🧰 Easy maintenance

DEFIBTECH LIFELINE AEDs

When time counts, count on life-saving technology.*

Sudden Cardiac Arrest (SCA) can happen to anyone, anywhere, anytime. Every year 33,000 Australians suffer from SCA of which only 5% survive. In fact, SCA is such a serious medical emergency that survival rates decrease by 7-10% for every minute that passes without defibrillation. After 8 minutes there is little chance of survival.

Fortunately, defibrillation using an automatic external defibrillator (AED) dramatically improves survival rates if applied in minutes.

When a person suffers SCA away from hospital, a Defibtech Lifeline AED can make the difference between life and death.

- More than a quarter million shipped worldwide
- Lifeline was the most successfully used AED in a study of minimally trained users

Designed to be robust and durable.

- 8 year warranty on all models
- Long battery life
- 24hr technical support
- Award winning design (VIEW unit)
- Built to US military specifications (VIEW unit)
- High drop tolerance
- Vibration tested for helicopter and jet aircraft
- High IP ratings
- Easy maintenance & easy to use
- Lightweight

With a Defibtech AED on hand, help is always within reach.

Defibtech AEDs offer industry-leading innovation and simplicity. Our product range includes the first AED to feature a full-colour video display, and a fully-automated defibrillator that analyzes heart rhythms and automatically delivers a shock. Defibtech Lifeline AEDs are so easy to use, virtually anyone can be a lifesaver.
